January 30, 2018

1. Assignment 1 has been modified for a version that has a solution!

February 1, 2018

1. There was an accidental mix-up in the TA room yesterday. The problem was that the TA was in the “traditional” Undergraduate TA room (4125), but as one sees from the “News Items” on January 11, 2018 (above), it was changed to 5422 for our course as a special case.
2. That said, the TA will be in the correct room HB5422 tomorrow, February 2, 2018, from 14:30 to 16:30 as an extra office hour slot.

February 5, 2018

1. One student has completed the required portion of Assignment 1. So the coffee has been taken! Congratulations...
2. The BFS apparently takes exhaustive space. Please see the revised version of the problem, in which I have removed all the relevant “highlighted colors” from the previous versions and only retained the final ones in “blue”. If you look at the video you will find the solution. *Remember that the last peg need not be in the position of the empty hole in Figure 3. It will be in the hole above it.*
